The first wave of volunteers came to Earth in the early days of humanity. They were here to help us learn the basics of survival and to develop our physical and emotional bodies. The second wave of volunteers came to Earth in the middle ages. They were here to help us develop our mental and spiritual bodies. The third wave of volunteers is here now. They are here to help us ascend to a higher level of consciousness and to create a new Earth.

Cannon argues that the volunteers are not here to save us. They are here to help us save ourselves. They are here to provide us with the tools and the knowledge that we need to evolve. It is up to us to use these tools and knowledge to create a better world.

The Three Waves of Volunteers and the New Earth is a fascinating and inspiring book. It offers a unique perspective on the evolution of humanity and the role that we can play in it. If you are interested in learning more about the volunteers and the New Earth, I highly recommend this book.

The Three Waves of Volunteers

The first wave of volunteers came to Earth in the early days of humanity. They were here to help us learn the basics of survival and to develop our physical and emotional bodies. These volunteers were often incarnated as shamans, healers, and teachers. They helped us to understand the natural world and to develop our own inner power.

The second wave of volunteers came to Earth in the middle ages. They were here to help us develop our mental and spiritual bodies. These volunteers were often incarnated as artists, scientists, and philosophers. They helped us to expand our knowledge of the world and to develop our own unique perspectives.

The third wave of volunteers is here now. They are here to help us ascend to a higher level of consciousness and to create a new Earth. These volunteers are often incarnated as activists, healers, and teachers. They are here to help us to heal our planet and to create a more just and sustainable world.

The New Earth

The New Earth is a vision of a future Earth that is more peaceful, just, and sustainable. It is a world where all beings live in harmony and where the planet is thriving. The New Earth is not a utopia. It is a world that is still in the process of being created. But it is a world that is possible if we work together.

The volunteers are here to help us create the New Earth. They are here to provide us with the tools and the knowledge that we need to evolve. It is up to us to use these tools and knowledge to create a better world.

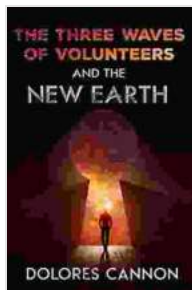

How to Help

There are many ways that you can help to create the New Earth. Here are a few ideas:

- Be kind to yourself and others.
- Be honest and truthful.
- Be responsible for your own actions.
- Help others in need.
- Protect the environment.
- Meditate and pray for peace.
- Visualize the New Earth.

The New Earth is a vision of hope and possibility. It is a world that we can create together. Let us all work together to make it a reality.
