As a dental hygienist, you play a crucial role in maintaining the oral health of your patients. Perry's Periodontology for the Dental Hygienist is the ultimate guidebook that empowers you with the knowledge and skills to excel in periodontal care.

Comprehensive Coverage

This comprehensive textbook covers everything you need to know about periodontal diseases, from their etiology and pathogenesis to their diagnosis, treatment, and prevention. The book is divided into five sections:

- to Periodontology
- Periodontal Anatomy and Physiology
- Periodontal Diseases
- Treatment of Periodontal Diseases
- Prevention of Periodontal Diseases

Expert Authors

Perry's Periodontology is written by a team of experienced periodontists and dental hygienists who have dedicated their careers to teaching and

clinical practice. The authors' expertise and passion for periodontal care shine through in every chapter.

Evidence-Based Approach

The book is based on the latest scientific evidence and best practices in periodontal care. The authors provide a clear and concise explanation of the rationale behind each treatment protocol, empowering you to make informed decisions for your patients.

Clinical Focus

Perry's Periodontology is not just a theoretical textbook. It provides practical guidance on how to perform periodontal procedures safely and effectively. The book includes numerous clinical photographs and illustrations that demonstrate important concepts and techniques.

Patient Education

Patient education is an essential part of periodontal care. Perry's Periodontology provides you with the tools and resources you need to educate your patients about periodontal diseases and their prevention. The book includes patient handouts and discussion questions that you can use to engage your patients and empower them to take control of their oral health.

Benefits of Perry's Periodontology

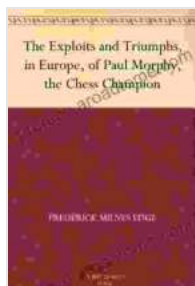

By using Perry's Periodontology in your practice, you will benefit from:

- Enhanced knowledge of periodontal diseases
- Improved clinical skills in periodontal care

- Increased confidence in patient education
- Better patient outcomes
- Greater job satisfaction
