In the face of adversity, we all have a choice. We can either give up or we can fight back. The seven people profiled in *We Testify With Our Lives* chose to fight back. They faced challenges that would have broken most people, but they refused to let them win. Their stories are a testament to the power of faith, hope, and courage, and they will inspire you to never give up on your dreams.

The seven people featured in *We Testify With Our Lives* are:

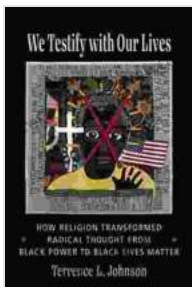

- **A young woman who was diagnosed with a terminal illness.** She was given only a few months to live, but she refused to give up hope. She fought back against her illness and lived for another five years.

- **A man who was wrongfully convicted of a crime.** He spent 10 years in prison before his conviction was overturned. He never gave up hope that he would one day be free, and he eventually was.
- **A woman who lost her husband and two children in a car accident.** She was devastated by their loss, but she found the strength to go on. She now works to help other families who have experienced loss.
- **A man who was born with a disability.** He was told that he would never be able to walk or talk, but he refused to let that stop him. He learned to walk and talk, and he now has a successful career.
- **A woman who was a victim of domestic violence.** She escaped her abuser and rebuilt her life. She now works to help other victims of domestic violence.
- **A man who was addicted to drugs and alcohol.** He hit rock bottom, but he found the strength to get clean. He now works to help other addicts recover.
- **A woman who is living with HIV/AIDS.** She was diagnosed with the disease in 1985, and she was told that she would not live for more than a few years. She has defied the odds and is still alive today. She works to raise awareness about HIV/AIDS and to fight for the rights of people living with the disease.

The stories of these seven people are a powerful reminder that anything is possible if you have faith, hope, and courage. They are an inspiration to us all, and they show us that we can overcome even the most difficult challenges.
